Fortuna(Red Envelope Blockchain app) (02/2024 - Present)

- An App which promotes the culture of gifting . We used Solidity and Shardeum to write the contracts . This app allows a user to send / recieve NFTs.

ACHIEVEMENTS

Finalist CodeFest 24 (02/2024 - 02/2024)

Our track during this hackathon was to build a sales pipeline CRM application . A total of 200 teams had applied out of which we managed to reach to the top 15 . Although we didnt win , we managed to learn quite a lot .

2nd Runner Up TechTrek '24 (01/2024 - 01/2024)

The track of this Hackathon was to build a working E-commerce website in a single day. We pulled though and were placed third.

Finalist Innofusion 24 (02/2024 - 02/2024)

This hackathon was a new experience for me , as during this hackathon we were tasked with creating a heart attack prediction model . Making an application related to the healthtech department was very challenging and we had a very good experience
